- The Risk and Reward Indicator table shows where this share class ranks in terms of its potential risk and return. The higher the rank, the greater the potential reward but the greater the risk of losing capital.
- The fund is in category 6 because of the high range and frequency of price movements (volatility) of the underlying investments referenced by the fund.
- This indicator is based on historical data and is not a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- A risk and reward indicator of '1' does not mean that the investment is risk free.
- The indicator is not a measure of the possibility of losing your
   Risks materially relevant not adequately captured by the indicator:
- Currency risk: The Fund may have holdings which are denominated in different currencies and may be affected by movements in exchange rates. Consequently, the value of the Fund's investments and the income from them may rise or fall in line with exchange rates
- Emerging and Frontier markets risk: the risk related to investing in countries that have less developed political, economic, legal and regulatory systems, and that may be impacted by political/economic instability, lack of liquidity or transparency, or safekeeping issues.
- Derivatives: This Fund can use derivatives in order to meet its investment objective. The use of derivatives may result in greater fluctuations in the value of the Fund, and may increase the magnitude of any losses.
- Liquidity risk: the risk that arises when adverse market conditions
  affect the ability to sell assets when necessary. Reduced liquidity may
  have a negative impact on the price of the assets.
- Operational risk: the risk of losses resulting from errors or failures arising from the people, systems, service providers or processes upon which the Fund depends.
- Legal or Tax risk: Arising from a change in legal regulations, tax rules or the application of them.
- ESG Risk: The security selection made in accordance with such criteria can involve a significant element of subjectivity. ESG factors incorporated in the investment processes may vary depending on the investment themes, asset classes, investment philosophy and subjective use of different ESG indicators governing the portfolio construction or its underlying investments. Accordingly, there is no assurance all investments of a given sub-fund meet all ESG criteria.
